JUGO-SLAV LOAN NOT YET RATIFIED ABROAD

Possibility of Cabinet Change Halts Completion.

BELGRADE, June 11 .- Political agitathon and the possibility of ministerial changes are holding up the loan of \$100,000,000, contracted recently with a New York firm. The loan has not yet been ratified by Parliament, nor has it been approved by the American State Department.

Meanwhile the exchange is fluctuating violently, and there is considerable di-vergency of views among foreign finan-cial experts regarding Jugo-Slavia's finances. Estimates of the public debt range from the equivalent of \$100,000,-000 to \$400,000,000.

WASHINGTON, June 13 .- The hundred million dollar loan to Jugo-Siavia, it was said to-day at the State Department, is understood to be one of the first to arise under the arrangement entered into between the Government and a number of American bankers a little less than a year area under which all less than a year ago, under which all such financial arrangements before be-ing finally consummated shall receive the approval of the Government. The object is to protect American investors.
